

**BENEFIT
FROM SYNERGIES
OF THE NEW
TRADE FAIR DUO!****TRADE FAIR DANGEROUS GOODS //
HAZARDOUS SUBSTANCES****TRANSPORT
STORAGE
INTRALOGISTICS
SAFETY****FUEL & GAS
LOGISTICS**International Trade Fair for the logistics
of energy sources, lubricants
and industrial gases**Transport and
Logistics Services**

Trade visitors to Fuel & Gas Logistics include professionals from the mineral oil industry, traders in energy sources, lubricants and industrial gases, as well as medium-sized freight forwarders looking for cooperation partners.

**IT - Digitalisation -
Networking**

Software solutions, communication systems and other IT applications can often be used in various different industries. Professional visitors to Fuel & Gas Logistics are able to visit both trade fairs to find out about interesting products and services.

**Occupational
health and safety,
environmental
protection**

The topics of occupational health and safety as well as environmental protection are common to various industries. In addition to the specific categories covered by each trade fair, many general topics such as PPE and emergency equipment are relevant for professional visitors to both trade fairs.

**Industry-Specific
Services**

A large proportion of the services featured at the trade fairs revolve around the handling of dangerous goods and hazardous substances and thus appeal to both target groups.

The following sectors covered at Fuel & Gas Logistics will give rise to similar additional synergies with greater numbers of visitor target groups:

- equipment for all modes of transport
- container and rental for all modes of transport
- Handling and storage
